

Morgan Raper

ALPHA FFA CHAPTER

Dear Fellow FFA Members and Advisors,

My name is Morgan Raper and I am a member of the Altha FFA Chapter. I would like to take this opportunity to introduce myself as an Area I State FFA Presidential candidate. My FFA career began just like many others, as a 6th grade student on the day I first stepped into an agriculture classroom. Soon after I joined, I immersed myself in all that the FFA had to offer. Lucky for me, my brother Braeden and I joined FFA in the same year, and we were able to take on the FFA together! I was amazed by the opportunities the blue jacket presented and I knew that I wanted to continue to be a part of this great organization.

During that agriculture class, I heard the story of those 33 farm boys, who believed in the promise of better days through better ways. They believed in preparing future generations for the challenges of feeding a growing population. They believed.

I believe. Two words that E.M. Tiffany found to be paramount while writing a statement of ideals for our organization. He felt that in order to have a successful organization, our members needed something to be guided by and believe in.

As FFA members we believe in many things. We believe in the future of agriculture, we believe in hard work, we believe in leadership, we believe in community service, and we believe in ourselves.

FFA members, I believe in you! I know firsthand the opportunities that this organization has to offer. I have spent the last seven years becoming immersed in Career & Leadership Development Events, attending leadership conferences and advocating for the FFA. There is a place for each of us in this organization, I truly believe that.

If I am elected to serve as your Area I State FFA Vice President, I will sincerely work to ensure that all FFA members believe they can make an impact within our organization. It is an honor and privilege to be running for Area I State FFA Vice President; one that I am most grateful for. I believe the opportunity to serve you would be the chance of a lifetime.

Forever Blue,

Morgan

AREA I STATE VICE PRESIDENTIAL CANDIDATE
