Morgan Young

**AREA 2 STATE VICE PRESIDENTIAL CANDIDATE
MIDDLEBURG FFA CHAPTER**

Dear FFA Members and Advisors,

My name is Morgan Young and I proudly represent the Middleburg FFA Chapter from Clay County. I am honored to introduce myself to you today as one of your Area II State Vice Presidential Candidates. I am extremely grateful to have the opportunity to serve this organization. Throughout my FFA experience over the last six years, I have developed a passion for the agriculture industry and the National FFA Organization.

When I zipped up my first blue jacket, there was a passion that sparked inside of me that continued to grow over the years. I became more involved and saw a need for advocacy within my community. I have been able to show swine for the past six years and beef heifers for three years this has allowed me to be directly involved with the agriculture industry. While showing these animals at our county fair and working the "Ask Me" booth, I realized there are a lot of people that are unsure of how the agriculture industry directly affects them. This organization has taught me to advocate in my local community as well as across the state. From talking to leaders in our state's capital to attending various community events where I spoke on behalf of the agricultural industry.

Not everyone has the same passions through our organization. Some enjoy working with various livestock animals, some focus more on plant science, or even a goal of running for political positions to speak on behalf of our agricultural industry. This is how our organization is very diverse and we can learn from each other and work towards the common goal to strengthen Florida's agriculture as a whole, along with the next generation of leaders through the Florida FFA.

FFA members are some of the most driven and hardworking students that never stop trying to pursue their passion. That passion found within our beloved blue corduroy jacket has led me to be blessed to be one of your Area II State Vice Presidential Candidates. This has been a personal goal that I set for myself as a 7th grade student sitting in the Area II COLT Conference. As your Area II Vice President, I would be love the opportunity to help encourage you to pursue your passion through our Florida FFA organization, whether it be polishing your skills in the show ring, learning different varieties of plants, helping serve our communities, or developing countless life skills.

I look forward to participating in virtual meetings with you and your chapter in the coming weeks leading to our Florida FFA Celebration.

Forever Blue,

Morgan Young
