

Pass The Salt

Delaney Erin Deadwyler Lafayette FFA

Dear Area II Members and Advisors,

It is with great enthusiasm that I express my hope to serve as your next Area II State Vice-President. My love for agriculture and the FFA has shaped me into the candidate I am today. From the first time I put on my blue jacket, I was drawn to the servant leadership aspect our organization promotes. My goal is to continue to advocate for an industry that is so vital to our fundamentals. I have spent many hours of community service inside elementary classrooms sharing stories regarding where our food comes from. This foundation is needed as the younger generation moves into a world that is three generations removed from production agriculture.

As your Area II State Vice-President, I will communicate with students the importance of being involved in the largest student-led organization in the United States. I strive to help agriscience students see that even if you do not have an agricultural background, you can still have a seat at this table. Members have a plethora of chances to develop skills crucial for their future careers, like diligence, collaboration, dedication, and innovation. Building relationships and making memories has been one of my favorite parts of being an FFA member; those connections make our organization the greatest.

The focus of my campaign is advocating for agricultural education as it plays a critical role in our schools, and the broader agricultural community. The theme of my campaign is "Pass the Salt." The Bible calls us to be the salt of the earth as each of us brings our own amount of seasoning to the table. We'll "Pass the Salt" by empowering our members and sharing our enthusiasm for the FFA and the agricultural programs we advocate for. FFA members are like a grain of salt because they may seem small individually, but when they come together, they can make a big impact. Like how salt enhances the flavor of any dish, FFA members contribute their unique skills, knowledge, and passion to make a positive difference in the agricultural industry. Each member brings their own perspective and strengths, and when they work together, they can accomplish great things. FFA members, like a grain of salt, play a vital role in enhancing and enriching the agricultural community. Together we can cultivate and season a brighter future for agriculture education.

The attached copy of my resume will provide additional details about my accomplishments, contributions, and FFA involvement. I want to extend many thanks for considering me as your Area II State Vice-President. I again express my desire to serve our area and hope that you will assist me in my pursuit to continue to "Pass the Salt" by electing me as Area II State Vice President.

I would love to have the chance to meet with you and answer any questions you may have. I am available in person or zoom at your convenience. Please contact me at 386-266-3202. I am looking forward to connecting with each of you.

Sincerely,

Delaney E. Deadwyler
