# Learning Outcomes & Efficiency Factors

Learning Outcomes are specific skills or abilities learned or developed through the SAE project.

Efficiency Factors measure how well an enterprise is managed compared to accepted industry standards. Efficiency factors are like grades on report cards. They help you know if your business is doing well and if you should continue your current practices or make changes to increase efficiency.

Provide a clear explanation of how the outcome/factor listed made a difference to the project the application is based on.

Learning outcome / efficiency factor	How it was demonstrated	Result (metric, if applicable)
