

It's time to turn the page!

Emily Diener

Florida FFA Members and Advisors,

I am Emily Diener, and I am honored to have the potential opportunity to serve Area IV as a State Vice President. As someone who found their passion and community through FFA, it is my mission to help every member find their place within the FFA, as I have. Thank you for taking the time to read my story.

I have always enjoyed sitting down to read a good book. Much like all of my favorite characters, we all have an origin story. Growing up in a military family, I moved around a lot, with the biggest move being from Hawaii to Florida just before the COVID shutdown. I started my new middle school classes online, and then eventually attended high school in person. During my freshman year, I was often found quietly reading in the corner, with my nose in a book. But once I joined FFA, I discovered my love for this organization which helped me overcome my fear of judgment and allowed me to step outside of my comfort zone. While I still always brought a book with me, I started attending FFA events and quickly found my community. I served as an officer within my chapter, started competing in CDEs & LDEs, and began raising livestock. As your Area IV State Vice President, my priority is to encourage each and every member to pursue their goals and take advantage of every opportunity they are given. FFA is more than just a club, it is the power we have to create the foundation for an incredibly bright future.

Outside of FFA, I have captained my school's Battle of the Books district-winning teams. I would like to structure my campaign around turning the page and writing the next chapter. Not just because I love reading books, but also because I know that whether you have been involved in FFA your entire life, or just the past few months, we all have the ability to write our own story and decide who we want to be. Your future is a blank page, together we can write a story that is worth reading.

I would love the opportunity to visit your chapter to connect with your members, so please reach out. I am available either in person, via phone, or zoom. For additional information about my experiences in FFA, please refer to my attached resume.

I hope that we all continue to grow as leaders in, and outside of, this incredible organization and I look forward to earning your respect throughout this journey. The best stories are still being written, so Florida FFA, it's time to turn the page!

Wishing you the best of all storybook worlds,

Emily Diener
