DURANT FFA
AREA V STATE VICE PRESIDENTIAL CANDIDATE

Dear Florida FFA Members and Advisors,

It is with great honor and excitement that I introduce myself as your Area V State Vice Presidential Candidate for the 2026–2027 Florida FFA State Officer Team. My name is Ashlyn Demanovich, and I proudly represent the Durant FFA Chapter. Although I did not grow up in an agricultural community, my life has been completely transformed by this organization. Through FFA, I found a place where I could grow in confidence, discover my passions, and develop into a leader who is eager to serve others.

Throughout my FFA journey, and throughout life, there have been moments that caused me to question my path and purpose. At times, it was difficult to trust that everything happened for a reason or that it would all make sense in the end. There were challenges, setbacks, and uncertainties that made the future seem unclear. Over time, however, I discovered that every chapter of my life was placed there with intention. Each experience, whether joyful or difficult, has contributed to my growth and helped shape the person I am today. Every page tells part of my story, and pieces together to make one cohesive collage.

Whether I was competing in parliamentary procedure, researching the effects of flour on sourdough starter, or teaching students about agriculture, every opportunity has taught me lessons that extend far beyond the events I participated in. Through these experiences, I have gained confidence, resilience, adaptability, and a passion for serving others. FFA has shown me that leadership is not simply about holding a title, it is about using your experiences to uplift and empower those around you.

If given the opportunity to serve as your Area V State Vice President, I hope to inspire members to appreciate every page of their own story and recognize that each moment sticks together. I want every member to know that no matter what challenges they face or obstacles they must overcome, those moments make them who they are.. Every setback can build perseverance, every uncertainty can create courage, and every challenge can reveal purpose.

My goal is to remind members that growth often comes through the moments we least expect, and that even the hardest pieces can lead to the greatest lessons. Each member has a unique story worth telling, and each story has the power to impact others. If entrusted with this role, I would strive to serve with authenticity, passion, and dedication while encouraging members across Area V to embrace their journeys, believe in their potential, and trust in the path before them because each moment will stick together, just like a scrapbook.

Florida FFA, together let's make the moments that stick!

OBJECTIVE

Every moment in our life happens for a reason. Each piece of our lives is an integral part of our own personal scrapbook that makes us who we are. If chosen to serve as a Florida FFA State Officer, I want to inspire members to trust in the process and overcome any challenge they face because each part is meaningful.
